RetailIQ Produce Restocking Guidelines

Fresh produce must be restocked twice daily at 06:00 and 14:00.

Bays with fill under 40% require immediate replenishment.

Organic greens must be rotated using FIFO rotation protocol.

RetailIQ Dairy and Bakery Temperature Standards

Dairy coolers must maintain temperature between 34F and 38F.

Bakery display cases must be inspected every 2 hours.

Temperature anomalies exceeding 40F trigger immediate alert.
